NEW! EXCLUSIVE!

FriendlyWriter™. The first full-powered word-processor for part-time typists!

Let's face it. Most of us do not work at our word processors all day. Sometimes not even every day. But when we do, we want a program that has all the power and features we need to type a letter, draft a report, write a memo or edit a document.

Above all, we don't want to have to review the manual every time we sit down at the keyboard because we've forgotten a special command!

Word processing for businessfolk.

FriendlyWriter is a program that makes friends fast. Everyone at our office who tries it, swears they'll never give it up! For those of us from the "hunt and peck" school, FriendlyWriter works beautifully. Yet it's got all the muscle anyone could want to handle complex jobs.

There's on-screen underlining, text centering, search and replace, justification, block moves, re-formatting and much more. There's even FriendlySpeller™, a 70,000-word spelling checker and built-in dictionary. In fact there are more "bells and whistles" than programs costing many times more.

Only 5 minutes to learn.

Sit down with FriendlyWriter and you'll feel at home. In five minutes you'll be writing your first letter. On-screen help is ready if you need it. Just start typing and you see on-screen exactly what you'll get. And because it's so easy to work with, it's perfect for use with portable computers on the go.

FriendlyWriter runs on IBM PC/XT/AT and PCjr and true compatibles. Requires only 128K memory and one disk drive or one disk drive and hard disk. Supports over 120 printers. **F7568B; $89.95.**

SPECIAL BONUS!

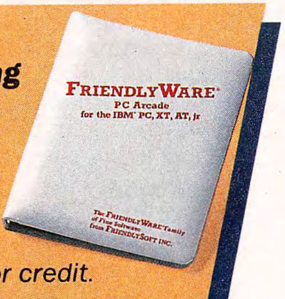
FREE! FriendlyWare's Best-Selling PC-ARCADE! $50.00 VALUE! With your FriendlyWriter Order!

Exciting games like Hopper, Gorilla Gorilla, Starfighter, Eagle Lander! More!

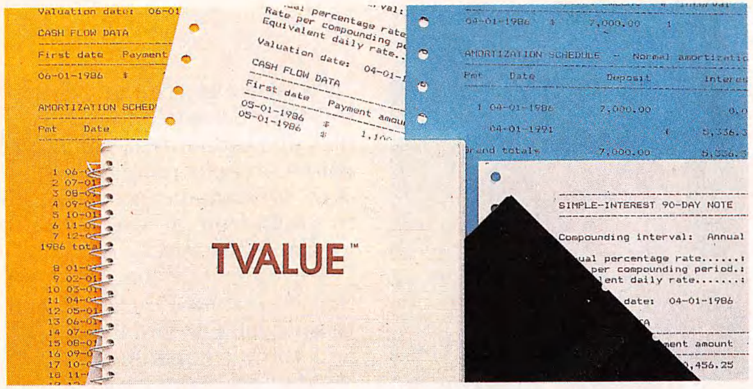
We're sure you'll love FriendlyWriter! Just try it for 45 Days. Then, if you're not completely satisfied, return it for refund or credit.

But Keep PC-ARCADE—FREE!

ORDER NOW! Supplies are limited!



FRIENDLYWARE
PC Arcade
for the IBM PC, XT, AT, jr
The FriendlyWare family of Fun Software from FriendlySoft Inc.



NEW!

TValue™ compounds, computes, compares and calculates! In less than a minute!

If you've ever had to struggle with a loan amortization schedule, compare present and future values, calculate an unknown interest rate or work out balloon payments, TValue is a blessing!

TValue is a complete compound interest program that can do in five minutes what could easily take an hour or more "by hand". Just enter dates, rates and amounts and TValue goes to work.

Compound interest, simplified.

TValue will compute present value versus future value. Figures payment amounts, number of payments, implicit interest rates. And it will give you instant solutions on the screen. Or print them out—fast and attractively.

For borrowers or lenders.

TValue will help you make lease versus buy decisions, help you decide how much to put down on property, the yield on a wrap-around mortgage. It can print report-quality amortization schedules by calendar or fiscal year. Does speedy recalculations for "what if" questions.

For attorneys, accountants, bankers, financial planners, realtors or anyone in business—TValue is a must! For IBM PC/XT and 100% compatibles. Requires 128K RAM and one disk drive. **F7617B; $85.00.**

NEW! Reflex™ gives you new ways to look at your database!

Reflex is fresh. Reflex is revolutionary. Reflex gives you new insight into your database. It lets you look inside and see what's hidden behind the numbers.

Five new views of your data.

Reflex is the first database that probes relationships—shows you in graphic form what's going on.

You use FormView to create your database. ListView shows you your data in tabular list form, just like a spreadsheet. GraphView gives you instant interactive graphics. CrossTabView gives you amazing "cross-reference" pictures of the links and relationships hidden in your data. ReportView generates reports, memos, letters, mailing labels and charts.

Open windows to your world.

Reflex uses advanced windowing techniques so you can see several views on the screen at the same time. Change one number and all your views are up-dated instantly on the screen. Same commands control everything. Great for doing "what if" analyses.

Easily your best investment.

Reflex is easy to use. Friendly enough for the novice. Sophisticated enough for the professional. And priced to make it the software bargain of the year! Reflex runs on IBM PC/XT/AT and 100% compatibles. Requires 384K RAM, two disk drives; or one disk drive and hard disk. **F7581B; ONLY $99.95.**

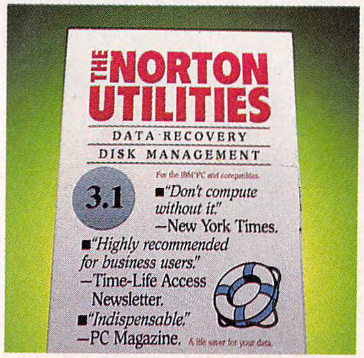
BORLAND

TOLL-FREE TECHNICAL HELP—BEFORE AND AFTER YOU BUY.

NEW! Norton Utilities™: A life saver for lost files!

You know the feeling! *Panic!* Your finger slipped and you accidentally wiped out a file. Hours, maybe days of work gone for good!

Relax. Norton Utilities will come to your rescue! Thanks to the remarkable UnErase™ feature, you can actually search for and restore lost data with a few simple commands!



THE NORTON UTILITIES
DATA RECOVERY
DISK MANAGEMENT
For the IBM PC and compatibles.
3.1
"Don't compute without it." —New York Times.
"Highly recommended for business users." —Time-Life Access Newsletter.
"Indispensable." —PC Magazine.
A life saver for your data.

Norton Utilities are powerful organizational and disk management tools—actually 16 programs in one—that help you get more out of your PC DOS. You can use the Utilities to repair damaged files, sort files and directories, change colors on your monitor, test disks for damage, secure sensitive data from others, measure available file space and more.

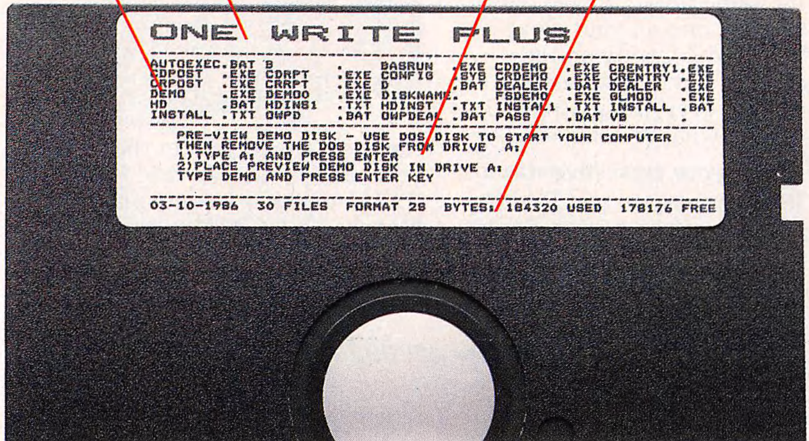
Norton Utilities is a program that no serious PC user should be without! For IBM PC/XT/AT and 100% compatibles. Version 3.1 requires 128K RAM, DOS 2.0 or higher. One disk drive. **F7611B; $99.95.**

"Don't compute without them."
-New York Times

NEW! Keep track of your files with Diskette Manager Plus™

If you've been working at your computer any time at all, you've got a whole library of diskettes to sort through every time you want to find a particular file. What a pain! ***Diskette Manager Plus*** is the solution! Easy, efficient to run, it catalogs your files and prints a neat label with disk name, files names, the date they were created, how much space they use. Plus up to 8 lines of comments. If you have more than 64 files on your disk, it will print a second label automatically.

That's not all. You also get a catalog of all your diskettes. Your files can be sorted alphabetically or catalogued in order of entry. Then you can print out reports for reference.



File names: 64 on standard label, 112 if second label is needed.

Comments: Up to 8 lines of explanation.

Diskette title: up to 17 characters.

Statistics: Gives dates, file format and storage use.

Diskette Manager II does all of the above—and more. It creates a relational database from the information stored in your catalog. You can find a specific file using DOS "wild card" searches—in only 2 seconds! Or you can cross-reference diskettes any way you like, and print out the results to the screen or in a report for your files.

Diskette Manager Plus and Diskette Manager II run on IBM PC and PC/XT and 100% compatibles. Non-copy protected version runs on the PC/AT and compatibles. Requires 128K RAM and two disk drives or one disk drive and hard disk. Also, IBM graphics printer or compatible.

NEW! dBASE III+™: More power—to wrestle with your toughest problems!

No doubt about it. There is nothing flabby about dBASE III+. It means business. It is quite probably, the most powerful database management system on the market for 16-bit microcomputers. It wrings every ounce of energy out of your PC and puts it to work.

Fast and powerful.

Without exaggeration. dBASE III+ can handle over a *billion* records per file! You can have up to ten files open at once, for sophisticated applications programs. Up to 128 fields in a single data file. Virtually unlimited number of fields in total. Works at blinding speed.

Need more?

dBASE III+ gives you precise calculations—up to 15 digits of accuracy. There's a full-screen picture of each record. "Key" files for fast handling. Built-in mailing label generator. You can down-load data from other computers. Or access other programs such as word processing or spreadsheets.

Easy to get along with.

dBASE III+ uses powerful, yet simple commands that are the next best thing to speaking English. There's a hand-holding "Assistant" feature that helps you through the program. With the new tutorial and manual you can be entering and working with data in minutes instead of reading for hours.

Not just for heavy-weights.

It's true that dBASE III+ includes many features and advanced commands that allow a serious programmer to develop sophisticated applications. But beginners find it easy to work with, too.

For IBM PC/XT/AT and 100% compatibles. Requires 256K memory and two disk drives. Or one disk drive and hard disk. **F7052B; $430.00.**

THE WALL STREET JOURNAL
BARRON'S
MANAGING THE MARKET
By Andrew Tobias
FREE PASSWORD
Managing Your Money's Stock Price Update Package

NEW! Up-date your portfolio in one minute flat with Managing The Market.™

Andrew Tobias' Managing The Market is the next best thing to having your own portfolio manager always on tap!

Managing The Market is a communications package that lets you call Dow Jones News/Retrieval to get the latest stock, bond, options and mutual fund prices. Then it hangs up quickly and downloads prices to most spreadsheets or ***Managing Your Money***—the best-selling financial management package. (See page 27 for a complete description.) It will even calculate your tax position and net worth—instantly!

Here's how it works.

You get a FREE Dow Jones News/Retrieval password and one hour's on-line time ($75.00 value). You can call for current prices or build "hot lists" of securities you want to track. You can see open, close, high, last and volume in each stock. Then Managing The Market stores the information to disk for editing by your word processor, or prints it out for later reading.

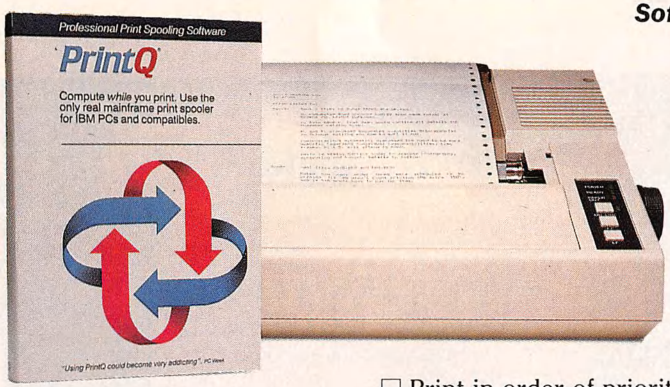
Dow Jones at your service.

You also get the full library of Dow Jones News/Retrieval Service for your business and personal use:

☐ Financial reports
☐ News reports
☐ Commodity prices
☐ Movie reviews
☐ Airline schedules
☐ MCI Mail
☐ Electronic shopping
☐ Encyclopedia information

Managing The Market will show you just where you stand and keep you poised to move quickly in the future. Runs on IBM PC/XT/AT 256 K PCjr., Compaq, and Tandy 1000 and 1200. Requires 192K RAM and one disk drive and 300/1200 baud modem. ***F7610B; $149.95.***

NEW! PrintQ™ lets you go on printing while you keep on computing!



Professional Print Spooling Software
PrintQ
Compute while you print. Use the only real mainframe print spooler for IBM PCs and compatibles.
"Using PrintQ could become very addicting." PC Week

Finally, there's a program that understands you need to do two things at once! PrintQ is a real mainframe-style print spooler that runs on your IBM PC or compatible. And saves you time and money! *No expensive hardware is required!*

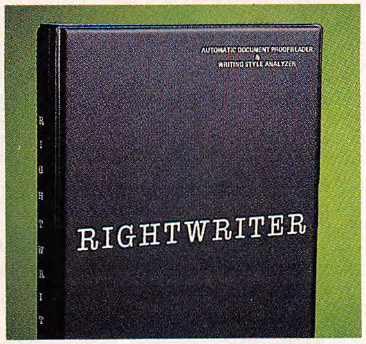
Imagine a program that prints up to 10,000 pages while you go on running other programs! Plus prints up to 255 copies automatically. Even re-starts after jams.

PrintQ is memory resident, so it's always there when you need it. When you want to print, PrintQ spools your documents to disk, then prints them as you need them.

With PrintQ you can:

☐ View spooled reports on "pop-up" display any time
☐ Hold documents for printing later
☐ Stop at each page for sheet feeding
☐ Print in order of priority
☐ Print same form types together to minimize paper changes.

PrintQ does all this without interfering or getting in the way of your computing. PrintQ runs on IBM PC/XT/AT, PCjr. and 100% compatibles. Requires 192 K RAM and one disk drive. ***F7612B; $89.00.***



Whatever you've got to say, RightWriter™ will help say it better.

No matter what your job description says, everyone writes for a living. Whether it's a simple memo or detailed company report, you have to put it in writing.

RightWriter's job is to help you develop a crisp, clear, concise writing style. It analyzes your text for errors in grammar, usage, punctuation, style and spelling. It points out wordy phrases and weak sentences. It jumps on cliches.

RightWriter is not just a spelling checker. It's actually a sophisticated editing tool that uses over 1500 rules and a dictionary of 30,000 words to make its decisions. It comments on sentence length, complex structure, choice of words and strength of delivery. It also determines readability of your text.

You just feed in your word processing file and press a button. In a few moments you have a new file marked with notations, recommended changes—maybe a few wrist slappings.

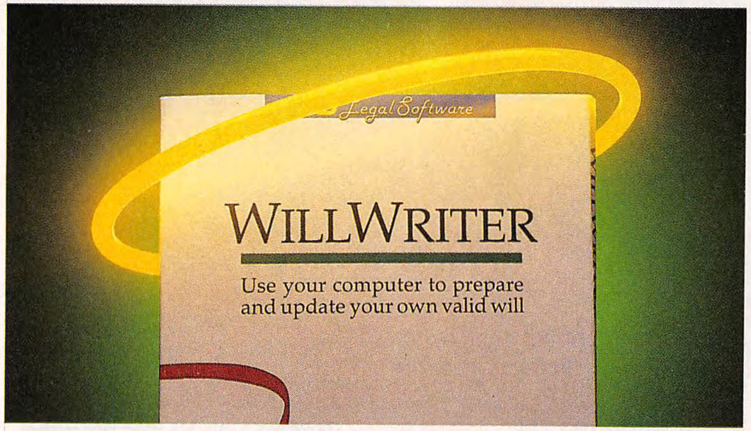
It runs on IBM PC/XT/AT, PC jr and most 100% compatibles. Requires 128K memory and two disk drives or one disk drive and hard disk. ***F7088B; $95.00.***

RightWords™ Dictionary.

Lets you customize the RightWriter dictionary to include your business or professional vocabulary. ***F7113B; $29.95.***

A few RightWriter recommendations:

Original Text	*Recommendation*
"Accounted for by the fact"	*Replace with "caused by"*
"It can be assumed"	*Omit completely*
"Fish or cut bait"	*Cliche*
"Has been decided"	*Passive voice*
"In the opinion of the author"	*Weak. Re-phrase*



WillWriter™ will make the toughest job you'll ever have easy!

Let's be honest. The idea of sitting down to draw up one's last will and testament is an issue we'd all rather avoid.

WillWriter lets you call the shots.

WillWriter is a step-by-step guide to drawing up your own will. It will help you prepare your own legally binding document—painlessly.

The truth is, most lawyers have a basic will on their word processor which they tailor for each client. WillWriter makes you *your own client!* You print out your own will. Pocket the legal fees you save!

Plan for now and later.

WillWriter lets you specify the parties who should receive your personal property and real estate. Lets you appoint guardians for your children. Instructs witnesses, explains how to execute the will and advises where to keep it safe.

And because your estate requirements may change as time goes along, WillWriter makes it easy to up-date your will without costly return visits to your attorney.

Translates "legalese."

WillWriter is outstanding in turning legal terms into language that's easy to understand.

WillWriter walks you through the program. On-screen help is there whenever you need it. And the 200-page manual is not only informative, it's so clearly and entertainingly written, it's good reading.

Runs on IBM PC/XT/AT, PCjr. and 100% compatibles. Also for Apple II+, IIe, IIc and Macintosh. IBM version requires 128K memory; Apple version, 64K memory; one or two disk drives or one disk drive and hard disk. (IBM version is on one side of the diskette; Apple version on the other.) Macintosh requires 128K memory and one disk drive.

Description	*Cat. No.*	*Price*
IBM/Apple version	**F7546BA**	**$39.95**
Macintosh version	**F7547M**	**39.95**

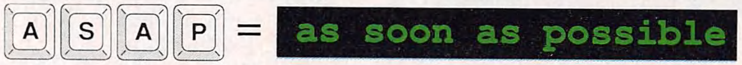
WillWriter is not valid in Louisiana.

NEW! You type in abbreviations—PRD+,™ types out the words!

For anyone who uses a personal computer, PRD+ is truly a software breakthrough! It will save you time, effort and make you a whole lot more productive.

Hw PRD+ wrks.

Now, instead of typing whole words, names, addresses, formulas, phrases, you just type simple abbreviations. PRD+ does the rest. For example:



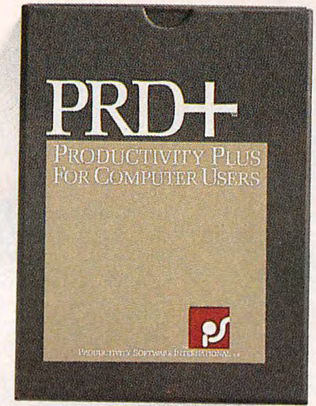
You type "asap" and press the space bar. On the screen you see: "as soon as possible."

Instantly. Without interfering with your train of thought. Every word is spelled correctly. And you saved 15 keystrokes.

U wrk fstr n btr.

PRD+ boils down boilerplate so you can speed through work. One abbreviation can produce up to 240 characters of full words. Secretaries can type a business letter in a fraction of the time. You can input complex formulas effortlessly. Or use it for professional phrases or technical jargon.

You don't need to know any shorthand. Use PRD+ standard abbreviations or create your own personal shorthand. The choice is yours. Either way, you get letter-perfect accuracy, every time.



PRD+
PRODUCTIVITY PLUS FOR COMPUTER USERS
PRODUCTIVITY SOFTWARE INTERNATIONAL

PRD+ is simple, natural, easy-to-use. It works with your favorite word processor, database manager, spreadsheet or graphics package. For IBM PC/XT/AT and 100% compatibles. Requires 128K RAM and two disk drives or one disk drive and hard disk.

F7583B; $179.00.

NEW! SBA Inventory Control looks after inventory, so you can keep an eye on profits!

Here's the help any small business needs to keep on top of the all-important job of inventory control!

SBA Inventory Control tells you exactly where your inventory stands. And what its value is—at any moment in time. It shows you what sold, what's been returned. When you ordered last. When you need to order again.

Inventory Control generates your purchase orders automatically to make reordering more efficient and accurate. It maintains an orderly list of all inventory items. It helps you avoid out-of-stock and overstock situations.

Inventory Control will give you custom reports, cross-referenced by any inventory category—item, vendor, dollar value, date—whatever. 19 inventory categories in all!

No matter what your business, no matter what your product line—Inventory Control will save hours of tedious record-keeping. And make it easy to keep on top of the bottom-line.

Easy to learn. Simple to use with on-screen helps. Inventory Control will store up to 1800 items on two double-sided disk drives; up to 2500 on hard disk. Runs on IBM PC/XT, PCjr. and 100% compatibles. Requires 128K RAM. Also for the Apple II, II+, IIc, IIe, with 64K RAM. Minimum one disk drive and 80 column display.

NEW! FlexForms™ The legal forms you need—without the fees!

With FlexForms, there's no need to pay hefty legal fees for the routine business and corporate forms you need. FlexForms are pre-written, ready-to-go contracts, agreements, letters and forms for nearly every business situation you'll run into.

FlexForms are legally binding, prepared by legal counsel and written in easy-to-understand language. No legalese.

They're ready-to-run on your own word processor. All you do is slip in the disk, choose the form you need, then fill in the blanks on the form. In minutes you'll have a complete legal document printed on your company letterhead.

FlexForms will help you eliminate costly errors and misunderstandings. Simplify "getting it in writing". They'll help you enforce your legal rights, comply with government regulations, avoid tax problems.

There are four FlexForms packages—over 300 different forms in all. Choose from General Business, Corporate, Real Estate and Personnel.

Or buy them all together and save $41.00!

For IBM PC/XT/AT and compatibles. Requires 128K RAM, two disk drives or one disk drive and hard disk. Also for Apple II, II+, IIe, IIc. Requires 48K RAM and two disk drives.

Compare and Save!

You'll save on our quality Printout Paper! Up to 18% savings!

Our top-quality continuous papers guarantee the kind of superior performance you need. We've got a wide variety of specialty papers as well as bright, easy-to-read greenbar for everyday data crunching.

Best of all, all our papers are priced for big savings. Compare our prices with others and you'll find they're probably the lowest around. The quality is unmatched!

A few tips on choosing the paper that's best:

☐ If you have a high-speed printer, you'll find 18# or 20# paper will perform better because of its extra weight and thickness.

☐ Orange and green tricolor paper is not only easy on the eyes, you can save paper because you can use ⅛″ spacing.

☐ Our bright-white paper is ideal for graphics as well as general correspondence.

☐ Continuous Letterhead Bond is the choice for word processing and quality correspondence. Its ultra-fine perforations leave edges so smooth you can hardly believe letters came off a computer.

☐ For one-use-only reports, where long shelf life isn't important, we recommend our cost-cutting 15# paper.

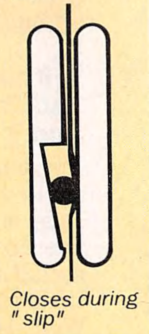
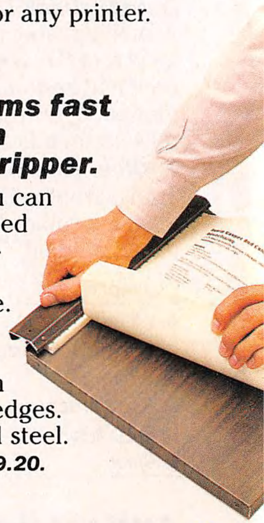
End View



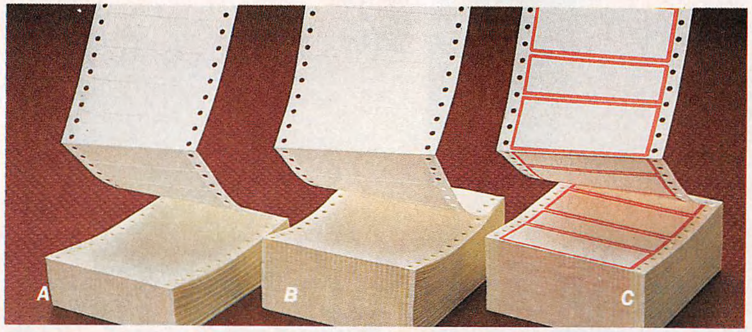
PaperLock™ stops paper drop!

This is one of the cleverest and most convenient ideas we've seen. PaperLock lets paper move freely upward into the printer. But it locks firmly to prevent paper from sliding down out of reach when you're changing forms on your printer. Ends the frustration of watching paper disappear behind the desk or falling on the floor. Arms attach easily to desk or printer with double-sided tape or screws (provided). Will accommodate any paper size. For any printer. **F5331; $12.95.**

Separate forms fast and easy with this Forms Stripper.



In nothing flat you can separate tractor-feed strips from continuous forms. Up to ½" stack at a time. Just insert forms, clamp shut and pull apart. No torn sheets or ragged edges. Durable vinyl-clad steel. Walnut. **F5016; $29.20.**



Choose the Avery Tabulabel™ in the style and size you need.

Avery pressure sensitive labels are designed to work best with small computers. Only the finest paper and adhesives are used. Guaranteed to work on small platens of mini-printers. Won't jam or tear.

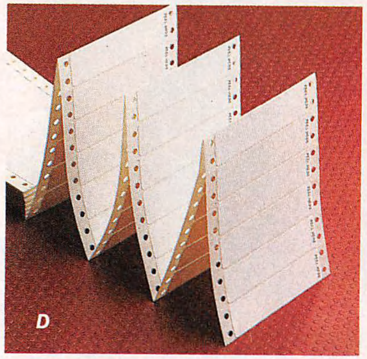
A. White Address Labels.
Fanfold. 1-wide. 3½"x15/16."

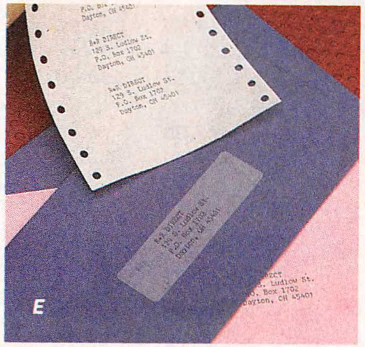
B. White Address Labels.
Fanfold. 1-wide. 4"x1 7/16."

C. Red Border Shipping Labels.
Fanfold. 1-wide. 4"x2 15/16."

D. Piggyback Labels.
A mailing label from you, and a correct ID label when the recipient responds. For easy manual operations. For fund raising, membership drives, etc.

E. Clear Address Labels.
Transparent address labels are ideal for colored or patterned paper. Fanfold. 1-wide.





Description	Size	Labels per carton	Cat. No.	Price per carton: 1-2	3-5	6+

E. Clear	3½"x15/16"	500	**F2016**	**12.95**	**12.50**	**11.95**

Avery Continuous Feed Address Labels run smoothly through your printer.

Quality Avery labels are guaranteed to perform. The finest paper and construction means smooth, trouble-free running through all types of printers. They refold easily after printing. Labels peel off smoothly, stick securely to envelopes, packages and folders. Two sizes.

Data Binders that last longer and look good, too.

Printout binders have to stand up to heavy usage. Our attractive binders last up to 10 times longer than pressboard. Made of 20-point Press-guard, they wipe clean with a damp cloth. Inside, two slide locks in steel channel hold pages securely. Riveted nickel steel channels and double scored hinges for strength. Unbreakable six-inch posts hold up to 4½" of printouts. These binders adapt to fit any drop file. Load from top or bottom. For unburst (printout pages continuous) or burst (pages are separated) sheets. Labels included. Blue, Red, Gray.

NOTE: *Binders sold in boxes of 10 only.*

The Swing-Ring Binder we call "Easy Reader."

The beauty of this binder is it opens completely flat to let you read your printout from top to bottom. No more prying pages apart to see the last few lines at the bottom. Swing-Ring holds up to 1½"—450 pages—of forms. Pages flip over easily, load and unload like a breeze. Easily adjusts to fit unburst forms up to 14⅞"x11". Made of tough 75 pt. rigid plastic that won't rip, crack or tear. Lasts for years. Dark blue. 2 per pack.

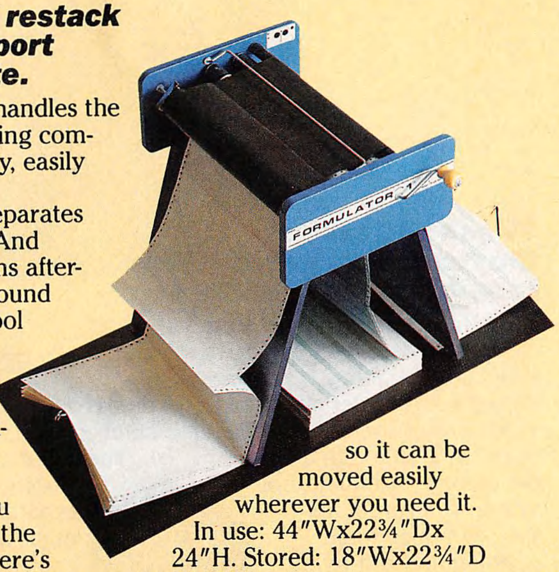
Decollate and restack a 300-page report in only a minute.

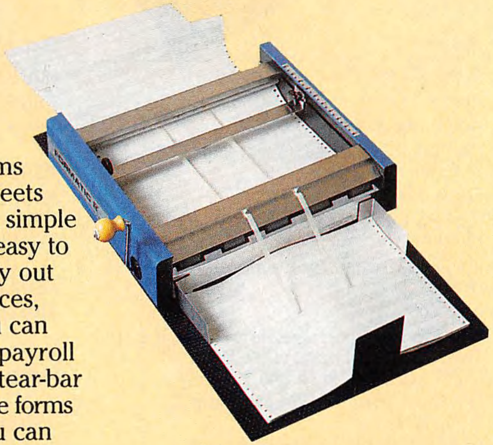


This neat machine handles the nasty job of separating computer forms—quickly, easily and cleanly.

This Decollator separates paper and carbon. And neatly restacks forms afterwards. Carbon is wound on a removable spool for neat, clean disposal. High gear ratio means smooth, easy cranking with extremely high performance. Hand crank lets you adjust the speed to the type of paper, so there's less chance of jamming or tearing. Built to give a lifetime of maintenance-free service. Holds a full carton of forms. Easily assembled. Weighs only 19 lbs., so it can be moved easily wherever you need it. In use: 44"Wx22¾"Dx 24"H. Stored: 18"Wx22¾"D x24"H.

Description	Cat. No.	Price
Decollator	**F5232**	**$229.00**
Carbonless attachment	**F5233**	**34.00**

This compact Burster splits apart continuous forms fast.



Just feed continuous forms in one end, individual sheets come out the other. This simple machine is unbelievably easy to use. It takes the drudgery out of bursting checks, invoices, reports and the like. You can actually burst up to 300 payroll checks in a minute. The tear-bar can be set to accommodate forms from 3" to 12" long. You can feed paper up to 15½" wide through the adjustable guides.

Very light. Can be stored away when not in use. Ruggedly built of steel and stainless steel for trouble-free operation. 16⅜"Wx18¼"Dx4½"H.

Description	Cat. No.	Price

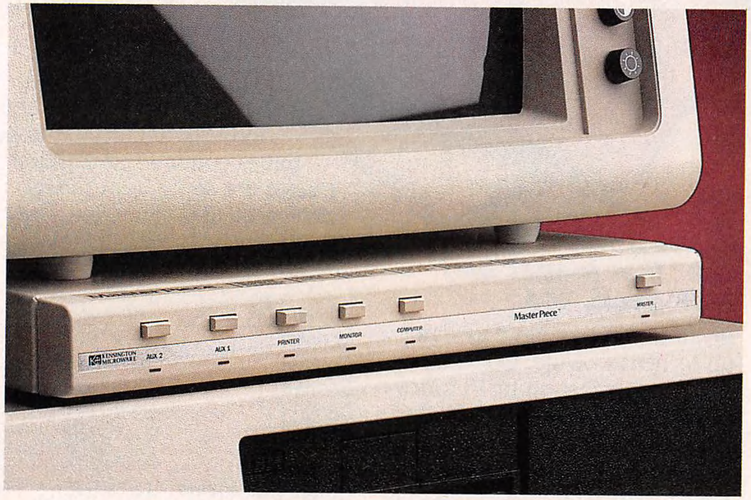
OUR 1-YEAR REPLACEMENT GUARANTEE PROTECTS YOU.

Masterpiece™—four powerful computer accessories in one elegant package.



Masterpiece is one of the most convenient, versatile accessories for personal computers on the market. Four of the most wanted accessories are combined in one handsome unit.

First, there's a swivel base to help you see eye to eye with your PC. You can adjust the viewing angle with a finger's touch.

Second, it provides five outlets in a power strip to handle all your peripherals. A Master Switch lets you power-up. Individual switches control peripherals as needed.

Third, a built-in surge protector protects your equipment from surges and spikes. Finally, it's a static protector. For IBM PC, XT, AT and PCjr., and most desk-top micro computers. Putty. **Cat. No. F5018.**

Masterpiece Plus. Adds protection for your modem from electrical surges and spikes on the phone line. **Cat. No. F5421.**

Keypatch™ takes over the controls, so you can concentrate on the numbers.

KeyPatch solves the frustrating problem of remembering whether your keyboard is in "Num-Lock" or not. It's a microprocessor-based mini-keyboard that plugs into your IBM PC or compatible and handles all cursor control functions. The numbers for data entry stay where they belong—on the keypad.

Keypatch increases speed and accuracy. Eliminates errors, reduces fatigue in data entry. A must for spreadsheet programs.

Takes no extra space, fits snugly on your keyboard.

COMPUCARD BY ROLODEX
Quick Reference Card
For IBM PC
ROLODEX CONTINUOUS FORM CARDS

Now your PC can turn out Rolodex™ files in seconds.

With the new Rolodex CompuCard computerized filing system you can up-date, edit and duplicate your files so quickly it's hard to believe.

This new system runs on the IBM PC and compatibles and Apple IIe Personal Computers. It comes complete with software and easy-to-follow manual.

You create, store, retrieve and up-date records. Then you print out Rolodex card files or lists—fast. You can print out a whole card set or any subset. CompuCard automatically dates your entry so you know how current your record is.

Organize, file, update, whenever you want: names and addresses, inventory data, suppliers, customer's files. Much more. Includes 500 2¼" x 4" Rolodex continuous file cards and a special VIP Card File with indexes.

CompuCard Computerized Card Filing System for IBM PC.
System requirements: 64K RAM, 2 disk drives. Includes program diskette, instruction manual. **F7000B; $54.95.**

CompuCard Computerized Card Filing System for Apple II, II+ or IIe.
System requirements: 64K RAM, 2 disk drives, 80 col. card. Includes program diskettes, instruction manual. **F7001A; $54.95.**

Extra Rolodex Card File.
Indexes only. Capacity 500 cards. **F5269; $22.75.**

For extra Continuous Rotary File Cards for your CompuCard system, call 1-800-654-PLUS.
In Ohio, call 1-800-545-PLUS.

Letterform 1000™ makes even tough letters easy to write.

Writing good letters is hard work. Particularly when it's in an area that's new or unfamiliar—collecting a bad debt, filing an insurance claim, raising funds for your club or declining a speaking invitation.

Letterform 1000 is the most remarkable productivity tool we've seen for anyone who has to write letters—for business, for social, for personal use! It's a complete desk reference to both commonly and rarely used letters and forms. It contains over 1000 professionally written letters and legal forms on diskette which you can read, personalize and print, using almost any word processing software.

LETTRIX
LETTER-QUALITY MATRIX PRINTING
For IBM PC, XT, AT, Jr. and compatibles. Improves OKIDATA, IBM Graphics, STAR, ThinkJet, PANASONIC, and EPSON printers
FOR IBM PERSONAL COMPUTERS

Lettrix™ gives your old printer twenty brand new faces.

Lettrix "connects the dots" of your basic dot matrix printer to let you print in twenty different typefaces that rival typesetting. Or print in foreign languages—Greek, French, German, Hebrew. Or in boldface, underline, italic, subscript, superscript—even design your own characters.

Best of all, with Lettrix, your dot matrix printer becomes a graphics generator that can sculpt a wide variety of characters out of a bunch of dots. And turn out text with a clarity and sharpness that nearly equals an expensive daisy-wheel printer.

And Lettrix delivers its near-letter quality print at half the cost and twice the speed of other print enhancers.

Lettrix responds to standard printer codes, so it works with all software. It prints text at ¼ of your printer's fastest speed, switches back to high speed at the touch of a key. For IBM PC, XT, AT or PCjr. or true compatibles. Requires 256K RAM and DOS 2.0 or greater. Works with Epson, IBM, Star, Panasonic, ThinkJet, Okidata, C.Itoh, Citizen printers.
F7070B; $98.50.

An R + R Direct Catalog Exclusive!

New! R+R Direct Ribbons. The great quality you need. Best yet, great value!

The better the quality, the better the bargain.

The simple fact is, "bargain" ribbons are no bargain at all when they rip or tear in the middle of a run.

Or the print quality is so ragged and anemic, you're embarrassed with the results.

That's why R+R Direct Ribbons are the best quality value on the market. They perform better because they're made better. Every step of the manufacturing process is geared to produce a finished product to the most exacting specifications.

A laser scanner is used to monitor the accuracy of the ink coating, constantly, while a computer tracks and controls ink flow, insuring an extra smooth, consistent coating for sharper printed images.

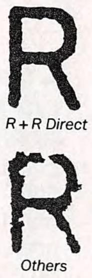
Always fresh. We guarantee it.

You'll never receive a 'tired' R+R Direct Ribbon. That's because of the unique coating process and vigorous quality controls. Every ribbon we sell is completely guaranteed for freshness. Guaranteed to print brightly, crisply and cleanly up to three years after its date of manufacture.

A quality difference you can see.

The ink coating on other ribbons can be thick in some parts, thin in others.

Typical result: broken letters, light or unreadable text. R+R Direct's smooth and even ink coating produces startlingly clean, crisp characters, with even density. No breaks or ragged edges.



R+R Direct Ribbons guarantee crisp, sharp impressions, every time.

On these pages we've pictured some of the most popular ribbons for data and word processing, personal computers and typewriters. We guarantee them to be compatible with the equipment that's listed. And guaranteed free from defects. Always factory-fresh and individually sealed for protection.

Here's how easy it is to order ribbons.

1. Find the computer manufacturer and printer model number in the compatability chart on these two pages. Note the appropriate Catalog Number.

2. Locate the R+R Direct Catalog Number in the pictures on the next page. You'll find the price and description listed with each drawing.

Can't find the right ribbon? Call our TECH TEAM Toll-Free.

1-800-654-TECH. In Ohio, call 1-800-545-TECH. We'll get the answer fast!

NEW! WordPerfect 4.1™ —Word processing that lives up to its name!

By virtue of its name, WordPerfect sets itself some pretty high standards. Happily, with the new 4.1 version, it has come about as close to perfect as any software package you can get.

WordPerfect turns your computer into a word processor with typing, editing and printing features found only on expensive, specialized machines. Like its earlier version, WordPerfect 4.1 is very fast, even without a hard disk. With the IBM PC/AT it's positively dazzling.

And it still features extensive use of function keys, uncluttered screen, ease of use, automatic formatting, powerful macro functions and all the other things you expect of a good word processor.

But its improvements and new features are stunning.

Automatic Backup. You can automatically save text to guard against losing work during power failure. (Hallelujah!)

Improved Footnotes. Put both footnotes and endnotes in same document.

Redline and strikeout. Mark your text with additions and deletions.

Outlining. Automatically insert numbers in Arabic or Roman numerals with a keystroke.

Table of contents. Generate five levels in five formats automatically.

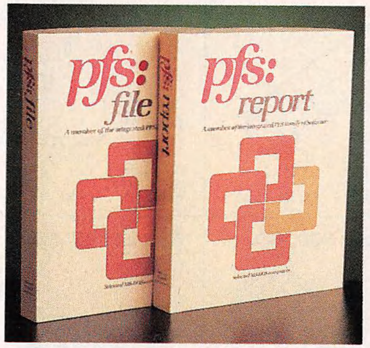
100,000-word dictionary. Includes phonetic look-up and automatic insertion of correct spellings.

Plus: Thesaurus, split screens, line drawings, indexing, paragraph numbering, columns, macro definitions, math capabilities mail merge, date insertion and much more.

The perfect help key. WordPerfect makes it easy to get help. Just press one key—F3— and you get two kinds of help. Complete help, that tells you where to look and which key to press next. New color coded template fits over function keys for easy use. It's so helpful, you won't even need the helpful manual.

WordPerfect 4.1 is an impressive, full-featured word processor that's designed for writers, professionals, secretaries and students alike. Whether you write short memos or long books, you'll find it does them perfectly. Runs on the IBM PC/XT/AT. Requires 256K memory and two disk drives, or one disk drive and hard disk.

F7116B; $235.00.



PFS: File™ and Report™ Simply a better way to get organized.

Basically, PFS:File works just like the paper filing system you've always used. But without the paper.

PFS:File lets you record, file, retrieve and, most important, use your information in ways that just aren't possible with paper and a filing cabinet.

The form and its function. With PFS:File you organize your information into forms you design yourself to fit your needs. You just fill in blanks on the screen to arrange the information any way you want it.

Sorting it all out. Once your information is filed, getting your hands on it again is easy. Just tell PFS:File what you want to find and it will search and sort it out instantly. For example, all the clients whose names start with "T". Or all the companies in zip codes between 00000 and 49999.

A powerful combination. PFS:Report is the perfect partner for PFS:File. It lets you create quick summaries of your data with totals, averages, counts, sub-total, percentages—you name it. PFS:Report takes your files and assembles them in tables, then prints them.

A family affair. PFS:File and Report are fully integrated members of the famous PFS Software Family. So you can easily use information from them in other PFS programs. For example, you can produce personalized form letters, complete with addressed envelopes with PFS:Write.

Both PFS:File and Report are very easy to learn and use.

For IBM PC/XT/AT, PCjr. or 100% compatibles. Requires 128K memory and one disk drive or one disk drive and hard disk. For Apple IIe or IIc. Requires 64K memory, one disk drive.

Macintosh Version. PFS:File and Report together. Requires 128K memory.

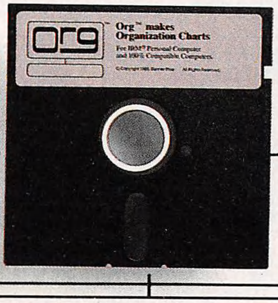
Org™ up-dates your organization chart—as fast as it changes!



NEW!

When your organization changes, nobody wants the nasty job of up-dating the organization chart. Now, you can turn it over to Org. Just enter the names of the players, their titles and subordinates. Org actually draws the boxes, centers the text, lays out the lines and prints it out.

And Org will do all this work in about three minutes. Compare that to the hours you probably spent working out your last chart! Org can handle complex charts with up to 99 management levels and 250 employees. Staff and dotted-line reporting relationships are accounted for, too.

And Org lets you add, delete or move employees—even whole departments as needed. The result is a presentation-quality organization chart—clean, exact and professional. And a chart you can save so you don't have to re-draw it.

For IBM PC/XT/AT, PCjr. or 100% compatibles. Requires 192K RAM, one disk drive.
F7570B; $69.95.

Here's How To Order

Toll-Free Phone. *Just dial 1-800-654-PLUS (1-800-654-7587). In OH 1-800-545-PLUS (1-800-545-7587). In AK and U.S. territories 1-513-461-7587 (not Toll-Free) M-F, 8am to 8pm; Sat., 9am to 5pm E.S.T.*

By Mail. Use Order Form.

Purchase Orders

Please add your Identification Code Number on your Purchase Order. You'll find it on the back cover mailing address.

Convenient Terms

Save Shipping Charges. Pay by credit card or send check with order and we pay regular surface shipping charges (except heavy, bulky items or overseas delivery).

Credit Cards. MasterCard, Visa, American Express and Discover accepted.

Open Accounts. Net 7 days after receipt.

Shipping and insurance charges will be added to invoice.

P.O.'s required for orders over $1,000.

Minimum Order: $15.00. No C.O.D.'s.

Special Orders/Annual Contracts

Call 1-800-654-PLUS for information about money-saving large quantity orders and annual discount prices.

Fast Service

Same Day Service. Products ordered by 2pm (Eastern Time) normally ship same day (except Sat.). Other products normally ship next working day.

Orders routinely ship UPS. Some heavy or bulky products (e.g., furniture over 70 lbs.) ship motor freight.

Next Day Emergency Delivery. We ship air courier or Express Mail for delivery by 5pm next business day. UPS 2nd Day Air Delivery available to most Continental U.S. cities at half next day delivery cost.

Guarantee

45-Day Product Trial. Try out any product for 45 days. If for any reason you're not happy with it, return it. For a full refund, replacement or credit. No hassle.

1-Year (or more) Product Replacement Guarantee. Every product is guaranteed for one full year against defects in materials and workmanship. And many are protected longer by the manufacturer.

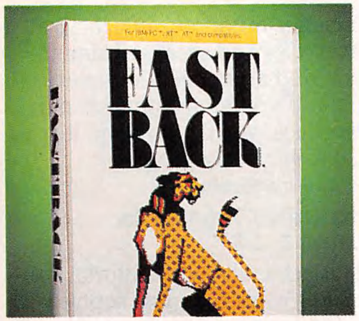
Our prices are guaranteed not to change. All catalog prices are guaranteed not to change through July 25, 1986.

Return Product Procedure

Important—Call for Return Authorization No. and instructions, 1-800-654-SERV, then send product in **original shipping carton** back with proof of purchase, freight prepaid. In OH call 1-800-545-SERV. In AK and U.S. territories, 1-513-461-7587 (not Toll-Free). We'll replace product or issue refund or credit for purchase price and tax.

Warranty Information

Write R + R Direct, Catalog Warranty Dept. for manufacturer's warranties. Our exclusive responsibilities for damages—indirect, special or consequential—are limited to those stated expressly in our 100% satisfaction guarantee, product warranty and customer service statements.



Back up 10 megabytes in 8 minutes (or less) with FastBack!™

FastBack is one of the slickest solutions to a common problem that we've come across in a long time.

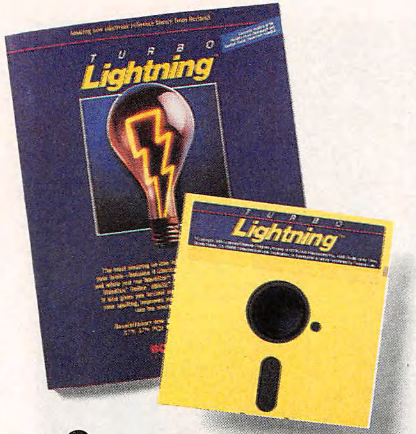
If you've ever lost valuable data, you know that backing up your hard disk is an absolute must! How slow it can be using DOS utilities. How expensive it can be with a tape backup system.

FastBack, however, is lightning fast! Its speed is faster than most expensive streamer tape systems. And it only costs about one-tenth as much.

FastBack speeds through its work—it takes only 17 seconds to fill an entire 360Kb disk. It automatically senses whether your disks are formatted or not. If not, it formats them for you as it copies.

FastBack even features an Automatic Error Correction System that recovers data from damaged disks. It keeps a catalog of your data on the hard disk, so you can find it and retrieve your files quickly.

For the IBM PC/XT and AT and 100% compatibles. Requires MS DOS or PC DOS 2.0 or higher; one disk drive and hard disk. ***F7545B; $179.00.***

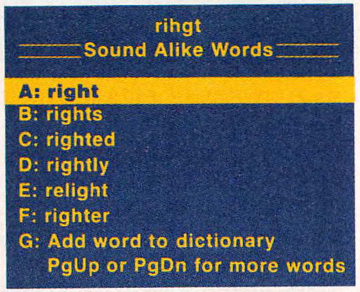


Once Turbo Lightning™ strikes, your writing will never be the same again!

Whatever you have to write—memos, letters, reports, newsletters, book reviews, even epic poetry—Turbo Lightning will make it better!

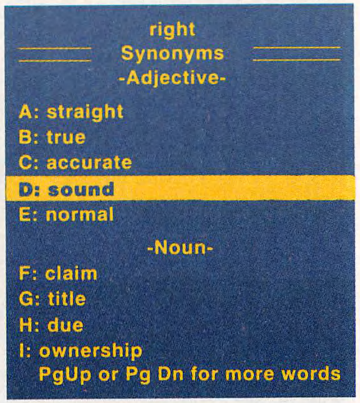
Turbo Lightning checks your spelling as you type! Corrects it, and it gives you your choice of alternate words—instantly!

How easy it works! Say you're typing a letter and accidentally you type "rihgt" instead of "right." Turbo Lightning beeps you to tell you you've made a mistake. Then you hit a key and a window shows you "right" and a list of sound-alike words. So you can find the "right" right on the spot.



```
rihgt
Sound Alike Words
A: right
B: rights
C: righted
D: rightly
E: relight
F: righter
G: Add word to dictionary
PgUp or PgDn for more words
```

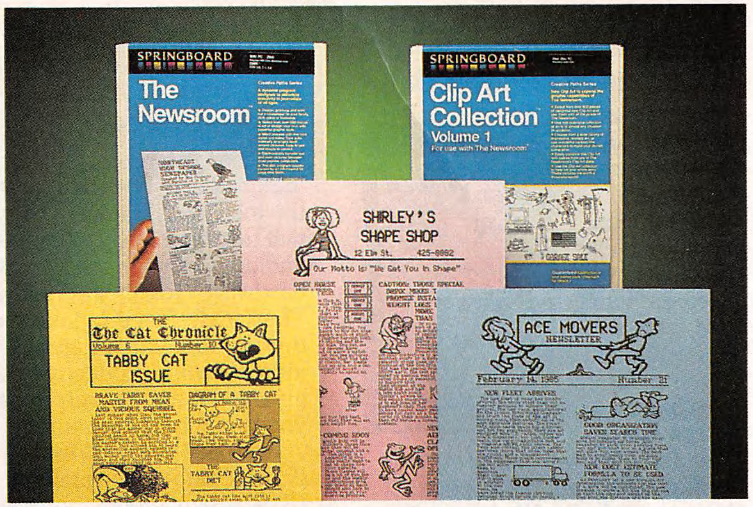
That's only the start. You decide you'd rather have another word, a stronger word. Hit another key and your on-screen Thesaurus gives you a list of synonyms to choose from. You pick which one you like, touch a key, and your new word is inserted in your text. Automatically.



```
right
Synonyms
-Adjective-
A: straight
B: true
C: accurate
D: sound
E: normal
-Noun-
F: claim
G: title
H: due
I: ownership
PgUp or Pg Dn for more words
```

Turbo Lightning gives you instant access to the 83,000-word Random House® Speller and Word List. And the 50,000-word Random House Thesaurus. They're at your fingertips while you're running other programs. Turbo Lightning will also drive the soon-to-be-released Turbo Lightning Encyclopedia and an array of electronic reference books—Turbo Lightning Library!™

Turbo Lightning will be your constant Literary Companion—waiting in the wings to help you write better and faster. It works with WordStar, MultiMate, SideKick, Lotus 1-2-3, PFS Write, Word Perfect, more. It runs on the IBM PC/XT or 100% compatibles. Requires 128K memory and two disk drives, or one disk drive and hard disk. ***F7544B; $89.95.***



Newsroom™—for all the news that fits your printer!

Newsroom is a powerfully sophisticated tool that will help you write, design and print out your own professional-looking newspaper—in minutes.

With Newsroom you can combine text and pictures easily and quickly to produce good-looking newsletters, bulletins, brochures, flyers, announcements and more. And have fun doing it!

You select from a library of over 600 pieces of clip art, combine them, change them, add your own drawings. Using Newsroom's easy-to-use word processor, you write your text, choosing from five different fonts. Then you position your illustrations wherever you like. Your copy will rearrange itself around your drawings. Need to make room for late-breaking news? Insert your new story and move everything around with the touch of a key.

You can even run your own wire service and communicate via modem with other computers to pick up stories.

Newsroom comes complete with an 85-page Illustrated Idea Book.

For IBM PC/XT/AT and compatibles. Requires 256K memory and two disk drives, or one disk drive and hard disk. Also for Apple II, IIe, IIc. Requires 64K memory and one or two disk drives.

Clip Art Collections.

Volume I enhances Newsroom with over 600 new pieces of clip art—sports, people, symbols, more. NEW—Volume II gives you 800 business-oriented clip art selections in a wide variety of categories and professions. Combine and adapt them all.

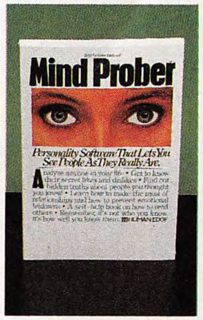
Mind Prober™ lets you get inside someone else's mind.



Mind Prober
Personality Software That Lets You See People As They Really Are.

This amazing software program helps you understand why someone behaves as he does. Lets you accurately predict what someone will do in a given situation.

In just minutes it gives you a scientifically accurate personality profile of anyone. Helps you discover what makes people tick. Their strengths. Their weaknesses. The things they're afraid to talk about or admit to.

Use Mind Prober to:

☐ Read others like a book

☐ Learn to interpret others' nonverbal clues

☐ Sharpen your perceptions and communications style.

Mind Prober asks you to answer a series of questions about another person—or yourself. Then Mind Prober goes to work and produces an astonishingly accurate 3 to 4 page report of the person you're studying.

A fascinating program that can help you understand fellow workers, clients, employees, friends and family better.

For IBM, Apple and Macintosh systems.

Individual Training™ Software—like having your own private tutor at hand!

Whether you're new to computing or you've been at it awhile, the Individual Training Programs will help you master the in's and out's of your software and hardware. Totally interactive. They're designed to take the mystery out of computing, increase your productivity. And give you a greater return on your computer investment.

We think these tutorials deserve an A+ for making DOS, Touch Typing, Lotus 1-2-3 and Graphics seem easy. Best of all, these lessons and practice sessions are a delight to work with. You use them when you have time. At home or at the office. Use them over and over again. For yourself or for new people in the office. Order one or all. For IBM PC, XT, AT, PCjr. and leading compatibles. Requires 128K memory.

Typing Instructor™

This tutorial definitely rates top honors. Fact is, it's top-rated by Time/Life, PC Magazine and Computer Buyers' Guide. Easy-to-use. Gives nice, positive feedback when you've done well. Excellent one-on-one. Will increase typing speed as well as teach touch-typing. Includes 18 lessons, typing tests and a fun game, too. Great color and sound effects keep the learning lively. Includes introduction to word processing. **F7100B; $49.95.**

PAINT YOUR OWN
PICTURE

A terrific way to get to know your software's best friend—DOS. This is the first fully interactive tutorial which simulates DOS. The hands-on approach unravels the mysteries of DOS, teaches you how to use it properly, saves you time and effort in handling all sorts of tasks. For users at all ability levels. Step-by-step lessons in DOS commands, Editing keys, Batch files, Hard disk, Tree-structures, more. **F7104B; $59.95.**

Professor Pixel™

Creating graphics has never been more exciting, more fun or easier to learn. Sit in on this course and in short order you'll be handling everything from simple bar graphs to animating charts and illustrations. You'll even learn how to create weird sound effects and play melodies. Includes numerous interactive exercises and scores of simulation and animated examples. Even if you're accomplished in graphics, you'll enjoy and learn from this lively program. **F7105B; $59.95.**

Individual Training for Lotus 1-2-3™

This is the all-in-one tutorial that makes even the most sophisticated features of Lotus 1-2-3 uncommonly simple. Hands-on interactive lessons cover structures and editing worksheets, important terms, using windows, performing "what-if" analyses. Teaches graphing, spreadsheets, data bases, macros and more. **F7103B; $69.95.**

The Instructor™

This is the ideal program for teaching PC users how to use hardware and software. Gives you interactive lessons on the PC keyboard, system reset, cursor positioning, editing, print screen, more. Other lessons cover PC hardware such as printers, disk drives, modems. Also introduces software and applications and essential DOS operations. **F7102B; $49.95.**

Tutorial Set™

This set is the most complete hands-on interactive training available. The set includes both The Instructor and Professor DOS, so you get complete training from introduction on. Both programs use vivid graphics, creative animation, sound and color to provide what's been called the most entertaining self-paced instruction in the business. Package includes three diskettes and user guide. **F7101B; $94.95—a $14.00 Saving!**

An R+R Catalog Exclusive!

NEW! Do all your typing without a typewriter—on PCTypewriter™!

Now you can type a label, address an envelope, fill in a form or dash off a memo—right from your PC keyboard!

You can get rid of that typewriter you've kept around the office for those odd, little typing jobs. PCTypewriter turns your IBM PC and printer into a powerful typewriter that picks up where most word processors leave off.

A wordwrap feature automatically sends words that don't fit to the next line. You set margins and tabs with a single keystroke. On-screen ruler and cursor show typing position at all times.

Handle your mailings, too.

PCTypewriter comes with PCTMail™—a powerful database tool. One touch of a key and you switch from a typewriter to a list manager that keeps names, addresses and sales information at your fingertips.

In seconds you can sort and print lists or labels for customer mailings, employee lists, whatever. Stores up to 1,400 records on a diskette or up to 60,000 on a hard disk!

Fill in your forms.

PCT Forms™ is another bonus! Lets you prepare and store templates for the forms you use right on your computer! You call up your forms, fill them in, then print them out—automatically!

For IBM PC/XT/AT, PCjr. or 100% compatibles. Requires 128K memory, dot matrix or letter quality printer.

Play The
GOLF'S BEST
PINEHURST

Give it your best shot with Golf's Best™!

If you've ever wished you or your foursome could play fabled St. Andrew's Course in Scotland or accept the challenge of world-famous Pinehurst No. 2 Course in North Carolina—here's your chance. On your lunch hour. Or after dinner. In the comfort of your office or home.

Golf's Best is an absolutely fascinating challenge—for duffer or pro alike.

Each hole on the course is shown in color and drawn exactly to scale. Layouts are just as they appear on the course—complete with sand traps, water hazards, trees, bushes, roughs—everything, in fact, except the spectators.

Complete with sound effects, Golf's Best leads you through 18 of the most difficult and demanding holes you'll ever face. You select which club to play, decide how hard to swing, size up wind conditions and adjust for sloping greens, deep roughs and changing pin positions.

Golf's Best is as realistic as a round on the Highlands or the Piney Hills. A great way to sharpen your skills when you can't make it to the course. It can be played on IBM PC/XT/AT, PCjr. and compatibles. Requires 128K memory, one disk drive or one disk drive and hard disk. Also on Apple II, IIe, II+ and IIc. Requires 64K memory and one disk drive. Color monitor recommended.

Flight Simulator II

Put yourself in the pilot's seat with Flight Simulator.™

Slip into the cockpit of a Piper 181 Cherokee Archer for an exciting, awe-inspiring, even heart-stopping flight. You'll fly over realistic scenery with a panoramic pilot's eye-view out the window in every direction.

High-speed 3-D graphics and amazingly realistic instrumentation give you the eerie feeling you're actually there as you practice taxiing, takeoffs, landings, aerobatics. You'll see mountains, lakes and rivers as they really are—over 80 different airports from New York to Los Angeles.

Flight Simulator actually duplicates actual flying conditions. You control flaps, rudder, throttle, elevator. You can pick your weather conditions from clear blue sky to rainy and overcast. Select time of day, wind conditions, season. You can start with easy flight and increase the complexity as you log more time "in the air."

There's even a World War I British Ace Battle Game that lets you pit your dog-fighting skills against the Jerries. Great fun and challenge for beginner or seasoned flyer alike. For IBM PC/XT/AT and Apple II, II+ and IIe. Requires 64K memory and color monitor.

NEW! Put your PC in maximum security with PC Fortress™

The PC Fortress gives you complete protection for your PC—in the factory, school or office. No more worries about sticky fingers or prying eyes!

Your CPU and keyboard fit securely inside its heavy, welded steel compartment. When you're ready to work, the hinged front panel swings down to support the keyboard. Keyboard shelf rolls out smoothly on heavy-duty ball bearings. When you're finished, close it up and lock it tight. Rear and side panels are slotted for ventilation and easy access to On/off switch. Base unit can be secured to desktop with adhesive strips or bolted in place for added security. Monitor Security Clips included. Pearl grey finish.

SuperKey™ gives a single keystroke the power of 1000!

SuperKey
SuperKey
BORLAND
SuperKey
File Security and Keyboard Enhancement Works Like Magic.

When SuperKey takes on those nasty, long, complicated sequences of keystrokes you need so often for spreadsheets or word processing, there's no contest!

It's wonderful. SuperKey can store whole paragraphs—actually up to 1000 characters—all on one key. So when you need access to a command, you simply hit the designated key! SuperKey executes. So simple. So fast. You save time and hassle!

Protection from prying eyes. SuperKey keeps your confidential files confidential, too. With SuperKey you can build in a password for any file. So if you're away from your desk, you don't have to worry about others browsing through your business plans, payroll records, tax returns or personal letters.

Put a "keep-out" on your keyboard. SuperKey lets you lock your keyboard. Great when you have to step out of the office for a time. Intruders can't sit down when you're gone and ruin hours of work.

Protects your monitor, too. SuperKey will make your screen go blank after a predetermined time to protect your monitor from "burn-in."

For IBM PC, XT, AT and true compatibles. ***F7033B;*** **$57.00.**

FormTool
FormTool

Custom design your own forms—with the touch of a button.

With FormTool,™ suddenly you're an expert forms designer. And you don't have to draw a single line!

Columns, grids, spacing. Automatically. Now FormTool makes forms so fast and easy, it's more like playing a game. FormTool is completely visual. You get line drawing, powerful editing, boldfacing, justification, block operations, variable sizes, much more. And all automatically.

So simple, all the help's on the screen. FormTool is designed to be so easy to learn, you don't need a thick manual of instructions. No strange codes or commands. Four pull-down menus to guide you.

The forms are all yours. What kind of forms? Organization charts, expense reports, time sheets, inventory records. You name it and you can design it. Draw it, print it, save it, re-use.

For IBM PC/XT/AT or 100% compatibles. Requires 256K RAM, and IBM compatible dot matrix printer.

The Ultimate Hard Disk Menu System
File Management with a Single Keystroke

NEW! Enhanced Direct Access™ makes getting at your hard disk easy.

If you have a hard disk system and work with a number of software programs you know some of the problems. Every time you want to change from one program to another, you need a whole series of commands. Commands that are hard to remember. Easy to mistake.

New Direct Access simplifies all that. It's a hard disk management and access package that lets you set up your own menu of programs and move quickly and easily from one to another. If you're working in Lotus 1-2-3, all it takes is one keystroke to move into Wordstar, or dBase III, or whatever. Or back again!

The New Direct Access has exciting new features:

Time Usage Tracking—Keeps track automatically of how much time you—and others—spend on the computer. Great for multi-user offices, recording time by client or assignment, tracking business vs. personal use.

Password protection—You can insert passwords at all levels, for complete security.

Customized commands—Load up to 20 lines of commands with one key stroke.

Screen blanking—Very important for protecting your monitor from "burn-in."

Screen color selection—Prefer your favorite colors? Change the screen any time, any way you want.

Takes only 60 seconds to install. Simplicity itself to learn. Step-by-step on-screen instructions. For IBM PC or compatible with hard disk and 128K RAM. DOS 2.0 or higher.

The BackSaver. The chair that lives up to its name.

The BackSaver Business Chair looks different from ordinary office chairs.

Because it works differently. The unique ergonomic design takes the pressure off your back, letting gravity share the weight of your body with your legs.

Your spine is curved naturally, reducing lower back stress and pain.

Even after long hours at your desk or computer, you'll be amazed how comfortable you feel, and less tired.

This chair is truly state-of-the-art. Unlike less expensive imitations, it's made with quality materials and craftmanship that surpass chairs costing hundreds of dollars more.

The frame is of heavy-gauge tubular steel. It rides on four dual-wheel casters that roll smoothly over any floor surface. Chair height can be adjusted 4″ to accommodate different desk or table heights. Seat and knee cushions are 2″ thick high-density foam covered with 100% heavy-duty nylon. Flame resistant. 24 lbs.

OUR 1-YEAR REPLACEMENT GUARANTEE PROTECTS YOU.

Build a workstation to fit your needs with Micro Manager.™ And save!

You can start by clearing your desk of peripheral clutter. No need to stop until you have a complete modular workstation! Add-on as your needs change.

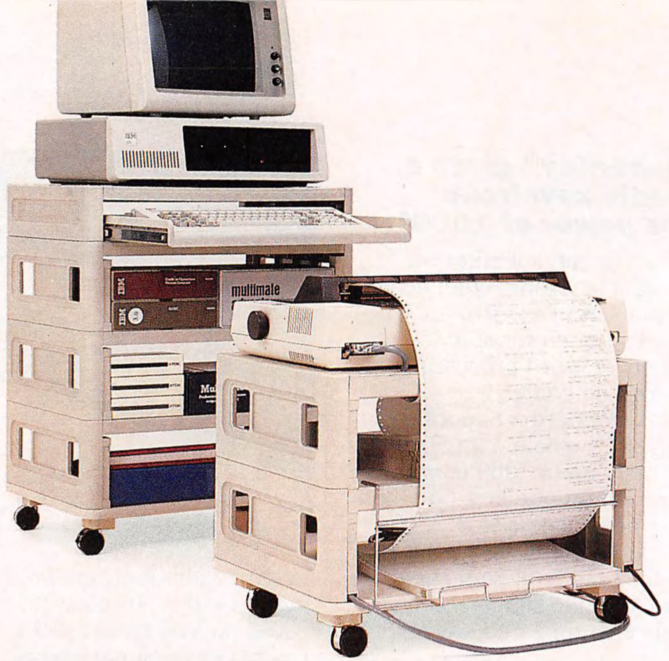
And Micro Manager Modules are so flexible as well as economical, you'll find ways to use several different arrangements around the office.

For example, the Basic Floor Unit contains two modules with locking casters and makes a compact, good-looking mobile printer stand. Need more room? Add another module and there's space for your CPU in addition to paper in and out.

Need a mobile workstation? Add the optional keyboard drawer and a standard module and you've got room for your monitor and CPU plus peripherals and storage. This arrangement brings the keyboard to an ergonomically correct height of 26″, too.

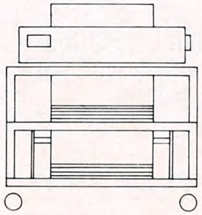
Attach a side tray on top for more work space. Or tuck your printer inside the module on a Roll-Out Printer Shelf.

An ingenious cable management system completely conceals cables behind removable covers in the rear of each module. Each module has a slot to accommodate rear or bottom feed printers. Side portholes make it easy to reach on/off switches. Heavy duty, high-impact styrene construction is built to take a beating, yet looks handsome in any office. Putty color coordinates with your PC. Assembles in minutes.

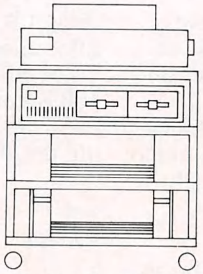


Optional Paper Guide catches paper from printer and neatly refolds it into bottom module.

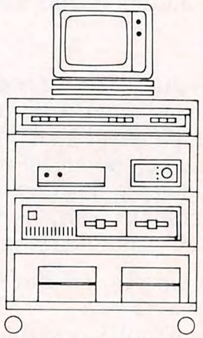
You can arrange Micro Manager modules in many different ways:



Basic floor unit.



Basic unit with one standard module.



With one module and keyboard drawer.

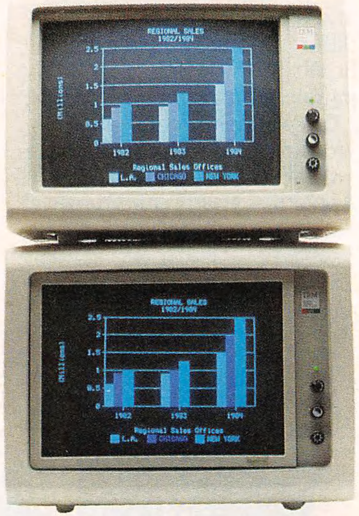
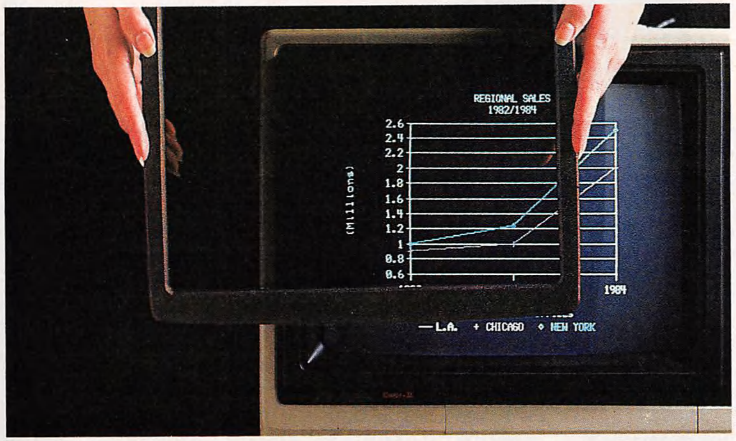
Screen out CRT glare with Dysan Precision™ Screen.

Precision Screen was rated #1 by IBM in a study of anti-glare treatments. It cuts out glare while it sharpens the image of your monitor. Specially designed optical mesh absorbs glare from light sources. Stops annoying reflections. Yet it enhances screen contrast and image brightness, minimizing eyestrain. Cuts fatigue. Black optical mesh with sturdy molded ABS frame. Installs in seconds. Friction fit or with Velcro™ strips, depending on model.





New Polaroid CRT Filter cuts glare 99%; costs less than $50.

Excess glare, reflection and poor contrast on the CRT or video display screen can cause eye strain, headaches and reduce efficiency. The new CP-50 filter is a durable, lightweight circular polarizing filter that mounts right on the screen. It traps up to 99% of reflected light and enhances contrast and clarity. More effective than absorption type filters. And you can install it in a minute. No tools required. Attaches with Velcro strips. Comes apart for cleaning. Light from the room can pass through the filter coming in, then the polarizing layers twist the light at right angles so it can't bounce back out. No more annoying glare.

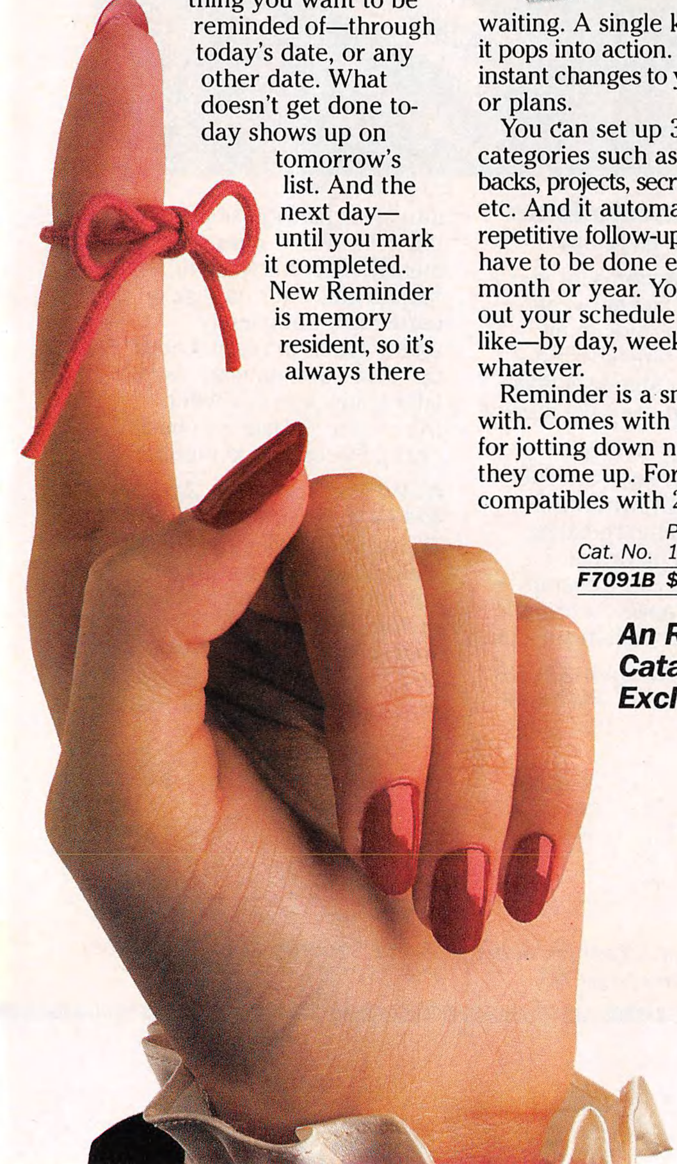
NEW!
The Reminder System™ won't let you forget!

THE REMINDER SYSTEM
THE FOLLOW-UP SYSTEM THAT NEVER LETS YOU FORGET
CAMPBELL SERVICES INC.
CATEGORY:
FOLLOWUP DATE:
FREQUENCY:
MESSAGE:



The NEW Enhanced Reminder System gives you a better memory than ever! You'll never miss an important deadline, overlook an appointment, or forget a birthday again!

Reminder generates a daily "to do" list that shows everything you want to be reminded of—through today's date, or any other date. What doesn't get done today shows up on tomorrow's list. And the next day—until you mark it completed. New Reminder is memory resident, so it's always there waiting. A single keystroke and it pops into action. You can make instant changes to your schedules or plans.

You can set up 30 custom categories such as reports, callbacks, projects, secretary, personal, etc. And it automatically notes repetitive follow-ups—things that have to be done every week, month or year. You can print out your schedule anyway you like—by day, week, month, whatever.

Reminder is a snap to work with. Comes with Input Sheets for jotting down new items as they come up. For IBM PC or compatibles with 256K RAM.

An R + R Direct Catalog Exclusive!

NEW! Sideways™ Version 3.11 stretches your spreadsheets even further!

SIDEWAYS still excels at what it's always done—print your spreadsheets across the length of the paper instead of the width. Sideways will still give you a 5-foot long spreadsheet if you need it. All on one continuous page. Without cutting, pasting or taping.

But, now new Version 3.0 goes even further. It features new Lotus-like menus that make it very easy to use. You can also print directly from Lotus 1-2-3™ or Symphony™ worksheets without ever leaving the program.

There's a wide new choice of type styles. New Bold, underline and expanded print. Plus nine different font styles for added flexibility. New Sideways is compatible with Lotus 1-2-3,™ Visicalc,™ Multiplan™ and most word processors and data bases.

Available for IBM PC/XT/AT, Apple II+ and IIe and most dot matrix and ink jet printers.

Notes can be up to 10 lines long, 50 characters each.

NEW! With Note-It,™ no one will ever question your numbers again!

"Where did that number come from?" Sound familiar? If you work in Lotus you know what it's like to go back to a worksheet and not remember how you came up with the numbers. What formulas you used. Or what your assumptions were.

Note-It is for anyone who's been there. Note-It lets you attach notes to as many as 100 individual cells in each Lotus spreadsheet you work on.

Instead of writing notes on pieces of paper, you write notes directly on the screen. The notes let you explain your assumptions, references or relationships behind any number or formula. So you know where you are next time. And how you got there.

Note-It sits in the background waiting until you need it. Call up your worksheet the next day, month or whatever and the notes are still there—right with the cell they explain. Just point the cursor at the cell and with a single command, the note pops up in the middle of the screen. Read it, edit it, then return to your worksheet.

Another command will give you a list of all the notes on a particular file. Even print them out, along with the spreadsheet they explain.

You'll never want to work without Note-It again.

Note-It runs on the IBM PC/XT/AT and true compatibles. Requires 72K RAM and two disk drives or one disk drive and hard disk. ***F7569B; $79.95.***

InfoWorld's 1985 Product of the Year: Best Software Value-Runner-Up!

Note-It
Note-It Program Disk
for Lotus 1-2-3
Creates notes to document your 1-2-3 worksheet

pfs:
plan
A member of the integrated PFS Family of Software

PFS:PLAN™— the member of the family you count on.

PFS:Plan is an electronic spreadsheet that's powerful enough to serve most planning needs, yet it's easy to learn and use. You talk to it in plain English. "Quick entry" lets you enter column headings with a single keystroke. Help screens pop up at a keystroke. PFS:Plan also lets you use key words to perform calculations instead of long-winded formulas.

PFS:Plan is part of the fully integrated PFS Software Family. Each product handles a specific job, so you only buy the one you need for the job at hand. And add others as your needs grow.

Its versatility comes naturally.

PFS:Plan lets you save and print your spreadsheet just the way you need it. You can review, summarize or work with the most important sections of your spreadsheet.

As a member of the PFS Family, PFS:Plan works hand-in-hand with other family members:

☐ PFS:Graph turns your spreadsheets into bar, line or pie charts.
☐ Analyze data from PFS:File.
☐ Include PFS:Plan spreadsheets in reports you write with PFS: Write.

PFS:Plan is available for IBM PC/XT/AT, PCjr. and 100% compatibles, Apple IIe and IIc. Requires 128K memory, one disk drive.

IBM Version	***F7108B***	**$99.00**
Apple Version	***F7108A***	**99.00**

New SuperCalc 3™ makes spreadsheets superbly easy.

SuperCalc is truly easy to learn! There's a quick-start pamphlet "10 Minutes to SuperCalc" that means what it says. In ten minutes (or less) you will have created your first spreadsheet. And from there on the help screens, manual and helpful reference card take over.

Versatility to count on.

SuperCalc 3 gives you a host of spreadsheet capabilities. SuperCalc will give you variable column widths, search and extract data, sort by column and row; consolidate spreadsheets into a master report.

Something new's been added.

The new SuperCalc includes FastMath, a math utility and Solve, a function that speeds calculations. There's even a program that lets you print spreadsheets sideways.

A few more plusses.

More than a spreadsheet, SuperCalc is an integrated package with powerful graphics and data management capabilities. It will turn your calculations into attractive graphs and charts. And organize and sort your data files. SuperCalc will also incorporate VisiCalc, Lotus 1-2-3 and dBase II and III files into your calculations.

SuperCalc 3. For IBM PC/XT with 96K memory. Two disk drives or one disk drive and hard disk. ***F7086B; $249.00.***

SuperCalc 3a. For Apple IIe, IIc with 128K memory. One disk drive. ***F7086A; $195.00.***

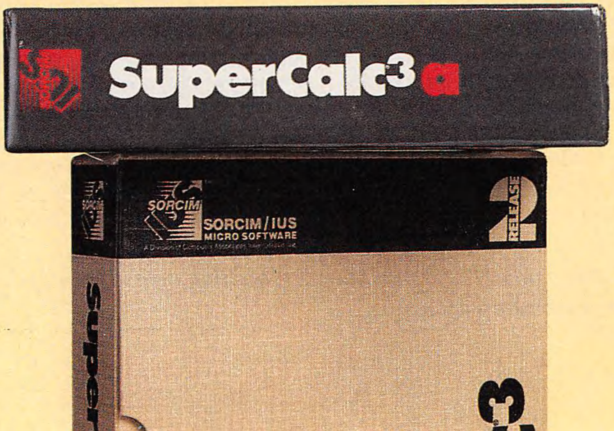
NEW LOW PRICES!



NEW! Open Systems™ Sophisticated accounting for small businesses that need to think big!

Open Systems is the undisputed leader in microcomputer accounting software because they understand that smaller businesses have accounting needs that are every bit as demanding as large corporations.

Open Systems software is so rich in features, it handles complex problems with unprecedented ease. But it's so simple to understand and use, you don't need a staff of CPA's to put it through its paces.

Solutions that work with you.

With Open Systems you can start with the one or two modules you need most. Then add others as your business needs grow. No other accounting line is so complete. Choose Accounts Payable, Accounts Receivable, General Ledger, Inventory, Sales Order Processing, Purchase Order Processing as well as Report Writer which links all your data to your favorite spreadsheet, word processor or graphics package.

More to grow on.

Later on, you can buy another company, add a new division, install extra terminals for multi-user accounting. No problem. Open Systems supports most popular local area networks so it can keep growing with you. And it comes complete with Source Code so you can even make special modifications—at no extra cost.

A UCCEL Company

Decidedly easy to learn and use.

For all its power and sophisticated features, Open Systems is simple to work with. Plain English commands. Comfortable Users Guide with trouble-shooting tips. Prompts along the way with friendly messages. Need more? There's a Toll-Free Support Line to bring you help when you need it.

It all works together.

All Open System modules work together so you only need enter information once, then everything gets posted automatically to the General Ledger and other files. Saves you time and effort. And for more specialized applications there are other modules which can come later. Fixed Assets, Job Costing, Time Billing, Project Estimating, Human Resource Management. Call us for more information.

Over 60,000 small businesses can't be wrong. Open Systems is the Number One accounting system for smaller companies like yours.

Open Systems is available for IBM PC/XT and AT and 100% compatibles. Requires 256K RAM and at least 10MB hard disk.

Make sense of your finances with Dollars and Sense™

Dollars and Sense is designed to take two complicated subjects—accounting and computing—and put them to work for people who don't know much about either. As well as for people who are expert at both.

Whether you're a novice or an old hand, you'll find Dollars and Sense is a no-nonsense, easy-to-understand way to learn a whole lot more about your business and personal finances.

You can use it to analyze investments, manage business expenses, monitor assets and liabilities, determine net worth, draw balance sheets.

And much more.

Easy does it.

Dollars and Sense is a powerful double-entry accounting package that's single-mindedly easy to use. There's a manual that's written in plain and simple English. A friendly tutorial with sample applications for household, business and income tax accounts. And the on-screen prompts pop-up just when you need them.

Watch it work.

You can enter and edit large amounts of information right on the screen. Write checks. Make automatic transactions. Jump from one function to another. In a flash. It will handle 120 main accounts, 12 checking accounts and work with up to 2,000 transactions on a single sided, or 4,000 on a double-sided disk.

How are you doing?

At a keystroke, you can generate income statements, balance sheets, year-to-date summaries, cash flow analyses. With a complete set of reports and graphs to show where you are vs. where you wanted to be.

It handles taxing problems with ease.

Namely how much you have to pay. Dollars and Sense for the IBM includes Forecast™ a unique tax estimating and modeling program. It works hand-in-glove with Dollars and Sense to take the surprise out of your Federal Income Taxes. And it can be purchased separately for Apple and Macintosh.

For IBM PC/XT, PCjr. and 100% compatibles, with 256K memory, one or two disk drives. For Apple II, IIe & IIc with 48K memory, one or two drives; Macintosh, 128K, one or two disk drives.

ANDREW TOBIA$
MANAGING YOUR MONEY™
Let Andrew Tobias become your personal financial advisor while your computer helps you manage your money effectively
Integrated Personal Financial Package

Managing Your Money™—the only financial software you'll ever need.

Before you even boot it up, Andrew Tobias' Managing Your Money gives you a terrific return on your investment. It's seven integrated programs for the price of one!

Checkbook/Budget Program-handles budget, projects cash flow. Prints checks.

Tax Evaluator-lets you try alternate tax strategies. Play "what-if" tax games.

Insurance Program-figures how much life insurance you need. Pulls all your policies together in one place.

Portfolio Manager-lets you enter taxable and tax sheltered portfolios with stocks, bonds, options. Shows capital gains and losses.

Financial Calculator-sections on loan analyses, bond yields, retirement analyses, tax shelters, even rental property.

Net Worth-pulls data from other sections to produce a personal balance sheet.

Electronic Reminder Pad-gives you monthly reminders of important dates, transactions.

The pieces work together.

Every section works with all the others. Write a check, your checkbook knows, your budget knows, your cash flow knows. Buy stock and it shows up in your portfolio, your net worth.

Designed to be easy.

Behind every screen there's help. Tobias shows how to work with the program, gives you guidance, shares information. Plus an on-screen tutorial, easy-to-use manual.

It runs on the IBM PC/XT/AT or PCjr. Requires 192K memory (256K for the PCjr.) and one or more disk drives.

F7565B; $149.95.

"Managing Your Money is, simply, the finest personal financial management program on the market."

-Personal Software Magazine, July, 1984.

one-write plus
accounts payable
one-write plus
master
one-write plus
payroll
one-write plus
accounts receivable

NEW! One-Write Plus™ Series makes all your bookkeeping as easy as writing a check!

The new One Write Plus Accounting Series is still the simple breakthrough it's always been. As comfortable as your old paper one-write system. As easy to work with. But neater, faster and more accurate.

But now—it's more. More complete. Because the New Expanded One-Write Series not only includes the Master (General Ledger) program, but Accounts Receivable, Accounts Payable and Payroll packages. So you can combine the speed and accuracy of the computer with the "old-shoe" comfort of your one-write system.

The whole idea of One-Write Plus is to put you in charge of your double-entry accounting system. Even if you don't know a debit from a credit. You fill out a check on the screen and it's automatically posted to your general ledger, while it prints out in seconds. In addition, One-Write Plus also records and up-dates your account balances, prints monthly financial statements, cash flow and audit trails.

How simple can you get.

One-Write Plus visually re-creates your one-write system on the screen. It does all the posting and totalling you normally do by hand-automatically! Even if you've never used a bookkeeping system before, you can get started quickly as soon as One-Write Plus arrives. The friendly, easy-to-follow manual takes you by the hand and guides you. Got a question? Help screens pop-up at a keystroke.

The rest comes easier.

Now, with the same simple and familiar One-Write Plus commands, you can incorporate Accounts Receivable, Accounts Payable and Payroll into your complete accounting system.

Some of the things you can do:

Accounts Receivable

☐ Store complete records for each customer

☐ Send out statements at a keystroke

☐ Record all sales, receipts, credits

☐ Print mailing labels, customer lists, sales analyses

Accounts Payable

☐ Record all purchases and payments

☐ Store complete data on each vendor

☐ Print checks in a batch

☐ Automatically calculate discounts

Payroll

☐ Handle all employees including subcontractors

☐ Produce payroll checks, make automatic deductions

☐ Store/print personnel records by dept.

☐ Print tax reports, W-2, 1099 forms, etc.

Growing with you.

What's nice about One-Write Plus is that it understands starting small. You can put it to work right alongside your present system. Or totally replace it. Start with General Ledger and add other modules as your business is ready for them. In any case One-Write Plus will work better in your business—no matter what it is. To let you spend more time doing what you do best—running your business.

Available for IBM PC/XT or 100% compatibles. Requires 128K memory; color or monochrome monitor and printer.

"Small business users who swear by manual one-write systems now have a first rate,computerized alternative."

-PC Magazine

NEW! CompuTutor™ Video Training Systems.

Tonight, you can sit down in front of your TV and learn Lotus 1-2-3!

Or Wordstar. Or dBase III.

Now, you can turn your spare time into prime learning time with CompuTutor Video Training Systems. CompuTutor is a remarkable series of friendly, plain-language computer training programs. They'll teach you how to get the most from your computer and software with "hands-on" lessons for anyone from beginner on up.

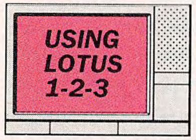
CompuTutor puts you in control. You decide how you want to use it. You can pull your TV and VCR up beside your computer and get comfortable. Whenever you choose. At home or at the office. Start or stop when you feel like it. Skip sections you already know. Review others.

Or you can decide just to watch the tape by itself. Without a computer. At home. Or over a lunch hour. To get a head start on your computer. Or refresh your memory.

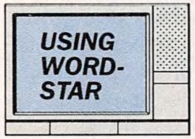
And because you'll be seeing, hearing and doing first hand—you'll learn faster and remember more. You'll learn how to use your computer in hours, instead of days or weeks.

We've tested each of these programs and they're terrific. They're entertaining, as well as informative. For the newcomer, they're a non-threatening way to learn the program quickly. For the more experienced user, they're great for brush-ups and as a 24-hour reference tool. Ideal for training new employees—for one person or a group. Again and again.

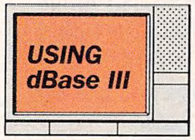
You get specific training for your software and your hardware. With hands-on examples of real-world business problems to practice on. Designed for the IBM PC, Apple IIe/IIc, TRS-80 and many compatible systems. In VHS or Beta.



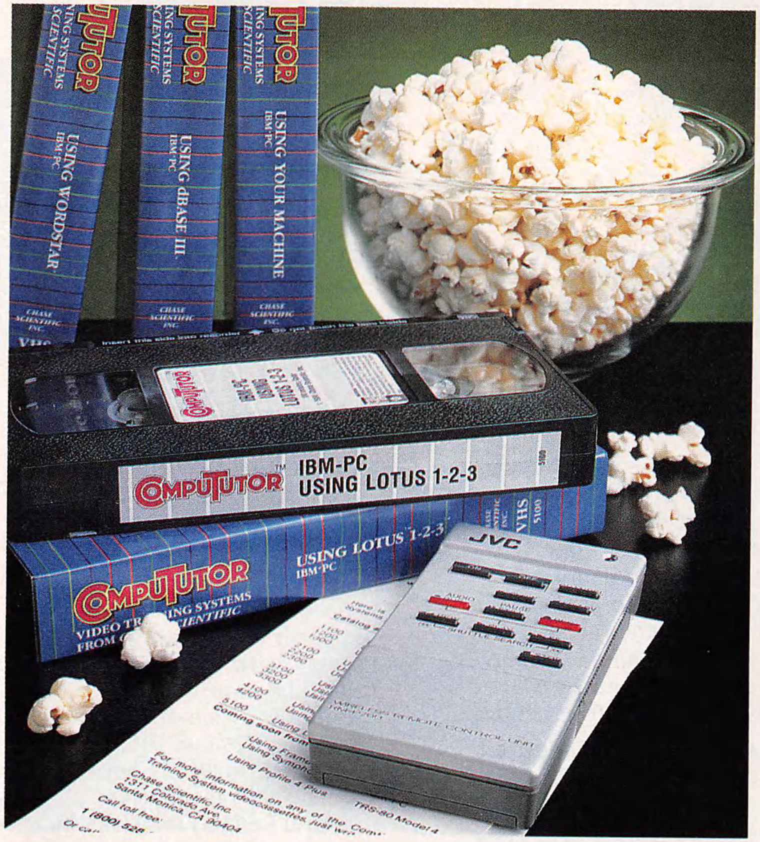
Covers all basic spreadsheet and macroprogramming capabilities of Lotus 1-2-3. Includes setting up spreadsheets, turning numbers into graphics, sorting the database and integrating it all together.

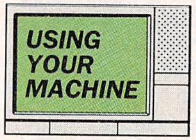


Includes installing the software, and teaches essential features of word processing. Basic cursor movement, word wrap, margins and tabs, formatting copy, search and replace, how to cut and paste copy, writing letters, building complex reports, etc.



Everything from installing the software program to the simplest database record-keeping through writing a program to produce a report. How to create a database, update, search, sort, index, file and edit, along with mathematical functions.





A primer for the beginner. How to hook up your equipment, install circuit cards. Learn the magic of disc operating, handling files. Even typing in a simple Basic program.

Price each: $79.95

the CAMBRIDGE SPREADSHEET analyst
CAMBRIDGE SOFTWARE COLLABORATIVE
the CAMBRIDGE SPREADSHEET analyst

NEW! Understand your spreadsheet's quirks, with Cambridge Analyst 2.0!™

Understanding your spreadsheet's problems can be enough to make anyone crazy!

The Analyst is an auditing tool for Lotus 1-2-3™ and Symphony™ that has rescued many an overly-trusting Lotus user from potential disaster. Actually, the Analyst is really several products in one: an error checker, a documenter and an exploration tool.

At the press of a button the Analyst will search around in your spreadsheets, sniffing out errors, tracing your logic, identifying circular references.

The New Analyst has expanded scan capabilities to let you explore your entire worksheet on-screen. You can move to any cell and trace its origins, then examine over two dozen situations that can point to errors.

Analyst 2.0 produces a wide variety of reports to give you all the documentation you need to get your spreadsheets on track.

Runs on IBM PC/XT/AT and 100% compatibles. Requires 192K of memory, two disk drives; or one drive, hard disk.

individual
INDIVIDUAL Training for Project Manage
individual
INDIVIDUAL Training for dBASE III

NEW! Learn dBASE III and Project Management with Individual Training!™

Now, the individual approach is available for two of the most wanted and the most demanding software subjects—dBASE III™ and Project Management.™

Individual Training Software has set new standards in software training. These programs are totally interactive. They take a personal approach. You get comforting, "human touch" feedback along with easy-to-read screens, graphics and color. Use them over and over again for everyone in the office. For IBM PC/XT/AT, PCjr. or true compatibles. Requires 128K memory. One disk drive.

For dBASE III.

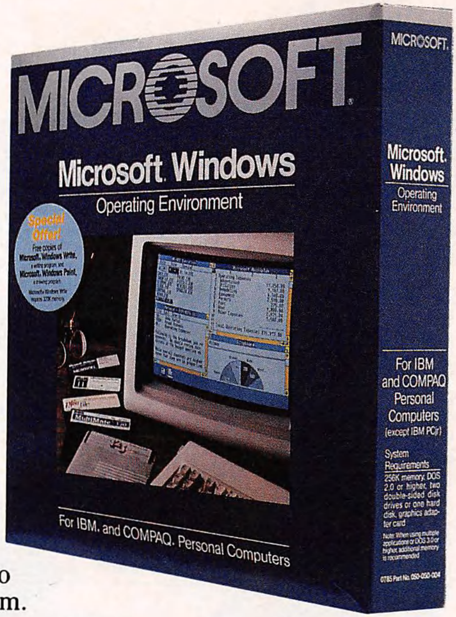
The unique, most informative tutorial program for dBASE III. Features highly interactive lessons which involve you in database models. Shows how to use wide variety of dBASE III features and applications. How to plan, create a database. Generate reports, write command files, even recover lost data. For new and experienced users alike. **F7561B; $69.95.**

For Project Management.

The first computer-based training software for such popular programs as TimeLine,™ The Project Manager,™ Harvard Project Manager.™ Makes project management easy and enjoyable. Interactive approach shows you how to work with commonly used techniques like CPM (Critical Path Method), PERT (Program Evaluation and Review Techniques) and GANTT Charts. From project planning to project control. **F7562B; $69.95.**

Now—power Windows™ for your PC from MicroSoft.™

MicroSoft Windows opens up whole new vistas for you and your personal computer. Windows is an advanced operating environment that puts power performance at your fingertips. Instead of compromising with integrated software packages, Windows lets you integrate your favorite stand-alone programs into your own multitask system.



Job-hopping made easy.

Windows lets you work with several different programs at once. Jump from one to another. Then back again.

For example, you can combine your favorite word processor, spreadsheet, project manager or graphics package. Use them all at once. Or, juggle them as you need them.

Combine your talents.

Windows makes it a cinch to pull together information from other applications to create powerful reports and documents. Combine text from WordPerfect, data from dBASE III, spreadsheets from SuperCalc. Add graphics, illustrations or type faces for striking effects on either dot matrix or laser printer.

Write, paint or putter.

Windows includes a special collection of programs to make your day-to-day work easier:

Windows Write-an easy-to-use word processor that's perfect for day-to-day tasks.

Windows Paint-a drawing program that lets you create illustrations, add boldface, shapes.

Notepad-a scratch pad or text editor for corrections.

MS-DOS Executive-file management program.

Print Spooler-work on one file while you print another.

Terminal-communications program lets you send or receive information; dial numbers automatically.

Desktop Applications-appointment calendar, calculator, clock, cardfile, much more.

Windows even expands your computer's memory, so you can run more programs than you have memory for. Uses keyboard or mouse.

Runs on IBM PC/XT/AT or 100% compatibles. Requires at least 256K memory and two disk drives or one disk drive and hard disk. **F7556B; $99.00.**

Trademarks listed are those of their respective companies.

Keep harmful dust, dirt and static away from your system!

Our heavy duty covers are the best investment you can make to protect your expensive computer investment. Dust, dirt, paper clips, cigarette ashes, coffee spills, can wreak havoc with your system.

Now you can protect your equipment from all these mishaps with our heavy, 6-gauge vinyl covers—specially fitted to your system. Best yet, you get built-in anti-static protection too, because the vinyl contains static-fighting additives to eliminate static charges on your machine.

These dust covers are really made to last. Every seam and edge is double-folded and machine stitched for strength and durability. They're custom tailored for an exact fit for your equipment. No sags and wrinkles. And they're so tough they're guaranteed for the life of your machine!

Select the dust cover for your system:

NEW! FormTool™ lets you design your own forms—at the touch of a button!

With FormTool, suddenly you're an expert forms designer. And you don't have to draw a single line!

How many times have you wished you had a special form to record information or organize data? Or you wanted to try out a new form before sending it to the printer?

Columns, grids, spacing. Automatically.

Now, FormTool makes forms so fast and easy, it's more like playing a game. FormTool is completely visual. You get line drawing, powerful editing, boldfacing, justification, block operations. And all smoothly and automatically.

So simple, all the help's on the screen.

FormTool is designed to be easy to learn. All the documentation is right on the screen. No strange codes or commands. Four pull-down menus to guide you as you go.

The forms are all yours.

What kind of forms? Expense reports, time sheets, inventory records, payroll data, mileage logs, attendance sheets, inventory checklists. You name it and you can design it. Draw it, print it, save it.

For IBM PC/XT/AT or 100% compatibles. Requires 256K RAM, and IBM compatible dot matrix printer.
